GREATER MANCHESTER

DOING THINGS DIFFERENTLY FOR OUR CHILDREN & YOUNG PEOPLE

Greater Manchester has a priority to support a multiagency, integrated early years workforce to support the ambition of improving outcomes for children and families from conception to age 5.

Tameside have begun implementation of the pioneering framework which will enable everyone who works or volunteers in the early years sector to carry out a self-evaluation of their skills, knowledge and abilities around a number of competency statements relating to early years practice, to help identify strengths and areas for further professional development.

If you or your team are interested in becoming users of the framework, please contact andrew.moroz@tameside.gov.uk
