Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	The vision is unsound because it contradicts the vision of sound environments for the localities. It will compromise the right to find spaces, around a crowded urban area, to roam and breath fresh air. It contradicts the concept of protecting our limited green belt. It contradicts the aims of a healthy community ie less obese, stimulation re mental health and general wellbeing. We have very limited free space to support a healthy lifestyle, which local councils say they are aiming for. To build further housing will mean we will lose a lot of the reasons why people want to live in Chadderton North.
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Re-examine why these plans have been put forward. Do not be lead by developers providing the choice of building sites. The directives from political bodies should be questioned as they seem to have just laid down guidelines across the country, rather than from detailed needs of localities.

Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Put a higher priority on green spaces in Oldham as we are already a built up area with very limited space to provide a healthy environment which is accessible without using transport and encouraging families to use it. Families did this a lot more during the pandemic and it is obvious they are now continuing to make use of our green spaces.

Please be as precise as possible.	This appears to give little focus on green areas for Oldham. There is little green areas marked for Oldham on the maps provided. If there are plans for more green space then this will also be limited and not accessible for a lot of people without arranging transport etc. It has to be local to be of everyday use.

Title	Oldham - Green Belt Additions
Type	Web
GBA Oldham - Tick which Green Belt addition/s within this District your response relates to - then respond to the questions below	Oldham GBA17 Land behind Denshaw Village Hall
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	Are there no further additions to green belt than this one area in Denshaw? There are areas which desperately need to preserve green areas to provide clean air and local walks, especially where there is no other nearby space. It appears that a significant adjustment has been made to other localities in greater Manchester, why not Chadderton and other Oldham areas.
