Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	NA
Soundness - Effective?	NA
Compliance - Legally compliant?	NA
Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>Having lived in this area for several years, we have witnessed the destruction of green spaces in this area and the ever growing housing estates, which bring with it many additional vehicles onto our already over crowded road system. The air pollution that comes from vehicles when walking along local roads can be tasted and I would guess that levels are exceeded on a daily basis. The additional houses without new roads to prevent traffic congestion will add to the pollution experienced.</p> <p>It seems logical that you cannot keep adding addition traffic to a road system without providing addition road space. To this end a bypass would be required to connect M61 junction 4 to the East Lancs Road A580 for through traffic in the area.</p> <p>The schools are at capacity, no additional Doctors are provided or leisure facilities.</p> <p>The loss of green space make the local footpaths through what was a green lung no longer a pleasant experience, and is therefore not good for general wellbeing. The impact on local wildlife is never considered and loss of habitat is now critical.</p> <p>To this end the destruction of this green space can only be described as greed by the people who profit from over development, at the expense of the local residents and wildlife.</p>
