Soundness - Consistent with national policy?	Unsound
Soundness - Effective?	Unsound
Compliance - Legally compliant?	Yes
Compliance - In accordance with the Duty to Cooperate?	Yes
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>Traffic in the local area is already excessive, especially during peak times. There are no plans to improve the existing road network and alleviate traffic with the increased volume of cars that the new housing site will contribute towards.</p> <p>School places in the area are very limited at the moment and the plans do not include anything to increase school places, extended existing schools or build new schools in the area. This will be detrimental to many families in the area.</p> <p>The plans propose to build on greenbelt land which is used by the public. There are other brown belt areas which have not been considered. As a family, we (amongst many other hundreds of families in the area) use this public land for walking animals and looking at the wildlife.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	The modification I would like to see is for the removal of JPA 19: Bamford/ Norden from the PfE
