<b>Soundness - Positively prepared?</b>	Unsound
<b>Soundness - Justified?</b>	Unsound
<b>Soundness - Consistent with national policy?</b>	NA
<b>Soundness - Effective?</b>	Unsound
<b>Compliance - Legally compliant?</b>	NA
<b>Compliance - In accordance with the Duty to Cooperate?</b>	NA
<b>Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.</b>	<p>I do not feel the Plan is justified considering that this area of land is GREEN BELT and an important divide between 2 communities used by walkers, dog walkers and the local farmer who collects hay from this meadow twice a year. Your plans seem to suggest that this is poor terrain. This is untrue! My elderly neighbours who overlook these fields remember many years ago crops such as barley, wheat etc. growing here. THIS IS THE SAME SOIL/EARTH. Today we enjoy a flower meadow with bird and small animal life. I would refer you to Gtr Manchester"s RECOVERY PLAN re Natural Environment and its plan to restore declining species/habitats giving nature its best chance to recover. You are going against your own Plan in destroying what we already have. Preventing new developments.....???</p>
<b>Redacted modification - Please set out the modification(s) you consider necessary to</b>	<p>No modifications necessary - just leave the GREEN BELT alone apart from putting a Preservation Order on it.</p>

**make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.**

Natural England are at present studying maps of this area and we are awaiting their findings. Prince Charles is a great believer and conservationist of flower meadows and their importance to local communities for health benefits and the necessity of green spaces for the general public. I have written to him with photographs to keep him aware of what is planned here by WIGAN in this North West industrial area.
