Title	JPA 30: Ashton Moss West
Type	Web
Soundness - Positively prepared?	Unsound
Soundness - Justified?	Unsound
Soundness - Consistent with national policy?	NA
Soundness - Effective?	Unsound
Compliance - Legally compliant?	NA
Compliance - In accordance with the Duty to Cooperate?	NA
Redacted reasons - Please give us details of why you consider the consultation point not to be legally compliant, is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.	<p>I am writing to register my strong opposition to the proposed redevelopment of Ashton Moss.</p> <p>This is a much loved local nature area, which is richly and surprisingly bio-diverse. There are ground nesting birds in the area, including skylarks, sparrowhawks hunt here, and the flora is extremely varied. It is a unique habit, not only because of its original location as a moss, but because the hills here were built from the spoil of the M60, it has plants and insects from all over Manchester.</p> <p>I feel the proposal fails to follow Objective 8, namely to improve the quality if the natural environment and access to green spaces.</p> <p>For many locals, it has been an important place of exercise, peace and sanity in these difficult times.</p> <p>In this regard, I feel the proposal fails to meet Objective 10, namely to promote health and well being.</p> <p>Heartbreaking to hear it might be destroyed, not least because it would be replaced by another anonymous industrial park, with a handful of low paying jobs which, let's face it, would struggle to be filled at the moment.</p> <p>As a longterm resident in Littlemoss, I remember the Moss before the motorway: a wild and beautiful oasis. Having been turned over for the motorway, it changed and grew into something equally unique and special.</p> <p>Please let's not lose it to car parks and empty warehouses.</p>
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant	<p>I would like to see the area formally developed as a nature reserve, incorporating the existing lakes.</p> <p>Develop paths, build a visitors' centre and cafe. Encourage schools to study the unique bio diversity of the region.</p>

and sound, in respect of any legal compliance or soundness matters you have identified above.
