Please be as precise as possible.	The area is already over populated so trying to squeeze thousands more right in the middle of it is crazy we need that area as breathing space there are loads of trees which produce plenty of oxygen in that area for us to help breathe and there is lots of wild life living there its their home there is a stream running through it as well its a popular spot for walking exercising on think of all the extra vehicles on the roads in that area it would create all that extra pollution
Redacted modification - Please set out the modification(s) you consider necessary to make this section of the plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified above.	Leave it as is greenbelt not causing no pollution at all let the wildlife keep their homes
