

Places for Everyone

Allocations: Cross Boundary Northern
Gateway Issues Summary

February 2022

Chapter 11 – Allocations: Cross Boundary Strategic Allocations

A summary of the issues raised in relation to the policies within PfE 2021 Chapter 11 Site Allocations (Cross Boundary) and the relevant respondents to PfE 2021 is set out below:

PfE 2021 Policy JP Allocation 1.1 Heywood / Pilsworth (Northern Gateway)

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|-----------------|--|---|---|
| | Principle (incl. scale and distribution) | | |
| JPA1.1_JPA1.1.2 | Large scale of site is a concern as it has potential to give rise to traffic impacts due to it being close to motorways. | No change necessary. The Transport Locality Assessments for JPA1.1 (Heywood/Pilsworth) [09.01.07] and [09.01.17] assess and evaluate the impact of the PfE proposals on the transport network. | David Bentley Jane Wagner |
| JPA1.1_JPA1.1.4 | Pilsworth landfill – include within developable area/unsuitable for development but could be a country park/should remain rural. | No change necessary. The former Pilsworth landfill site does not form part of the proposed JPA1.1 allocation. This site is unsuitable for development and, as a result, it is not proposed to include this within the site allocation and remove from the Green Belt. | Northern Gateway Development Vehicle LLP |
| JPA1.1_JPA1.1.5 | Support – Highly accessible and sustainable location for growth. | Support noted. | Neil Lewis Northern Gateway Development Vehicle LLP |
| JPA1.1_JPA1.1.6 | Object to scale of the allocation; Heywood and Pilsworth (Northern Gateway) represents a huge incursion into the Green Belt and a gross scale of development which will have significant detrimental impact on the local community, ecological networks, the environment and the road network. | No change necessary. In line with NPPF, the Plan seeks to promote the development of brownfield land within the urban area and to use land efficiently. By working together the nine districts have been able to maximise the supply of the brownfield land at the core of the conurbation and limit the extent of Green Belt release. Chapter 4 (4.1 - 4.23) summarises the PfE Spatial Strategy which seeks to boost the competitiveness of the Northern Areas. The approach to growth and spatial distribution is set out in the Growth and Spatial Options Paper [02.01.10] . A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). | David Bentley Stephen Cluer The Friends of Bury Folk Save Greater Manchesters Green Belt (SGMGB) |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|---|---|--|
| JPA1.1_JPA1.1.7 | The Plan and policy do not give assurances to the public about the siting and form of development, | No change necessary. PfE is seeking to allocate the Heywood Pilsworth site (JPA1.1) for employment-led development. It is too early in the process to consider the siting and form of development. However, an illustrative development framework has been produced for the Heywood Pilsworth site [10.01.01] which gives an indication as to the potential extent of development on the site. | Stephen Cluer The Friends of Bury Folk Save Greater Manchesters Green Belt (SGMGB) |
| JPA1.1_JPA1.1.8 | Scale back the development to be more sympathetic with the local area and retain more natural green space. Keep the two allocations JPA 1.1 and JPA 1.2 clearly separated | No change necessary. Chapter 4 (4.1 - 4.23) of the Plan summarises the PfE Spatial Strategy which seeks to boost the competitiveness of the Northern Areas. The approach to growth and spatial distribution is set out in the Growth and Spatial Options Paper [02.01.10] . A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). JPA1.1 and 1.2 are clearly separated by the M62 and a significant area of retained Green Belt. | The Friends of Bury Folk Jane Lester |
| JPA1.1_JPA1.1.9 | Covid, Brexit and the Greater Manchester clean air charge will all negatively affect demand for industrial units in the area. I think these plans are unjustified. | No change necessary. As detailed in Chapters 1, 6 and 7 of the PfE Plan, two assessments of the potential impacts of Covid-19 and Brexit on the economy were carried out, initially in 2020 and again in 2021. Both assessments concluded that there was insufficient evidence to amend the assumptions underpinning the PfE Plan. For further information see COVID-19 and Places for Everyone Growth Options [05.01.03] . | Lindsay Earnshaw |
| JPA1.1_JPA1.1.10 | Strongly support the continued allocation of the site within Policy JP Allocation 1.1 Heywood / Pilsworth (Northern Gateway). The proposed development will deliver significant benefits to | Support noted. | Northern Gateway Development Vehicle LLP |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|---|---|--------------------|
| | the local area and to Greater Manchester as a whole | | |
| JPA1.1_JPA1.1.11 | Objection to principle of allocation and removal of site from Green Belt | No change necessary. Chapter 4 (4.1 - 4.23) of the Plan summarises the PfE Spatial Strategy which seeks to boost the competitiveness of the Northern Areas. The approach to growth and spatial distribution is set out in the Growth and Spatial Options Paper [02.01.10] . A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the employment land needs and supply can be found in the Employment Topic Paper [05.01.04] , the details of the housing land needs and supply can be found in the Housing Topic Paper [06.01.03] . Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25] | See Appendix |
| JPA1.1_JPA1.1.12 | Object to scale of proposed development and subsequent disproportionate loss of green space compared to rest of region. | No change necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the employment land needs and supply can be found in the Employment Topic Paper [05.01.04] , the details of the | Ian Taylor |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|--|---|
| | | housing land needs and supply can be found in the Housing Topic Paper[06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25] | |
| JPA1.1_JPA1.1.13 | In respect of the two Northern Gateway sites there are doubts as to how quickly the site can come forward and deliver a total of 2,750 houses and 700,000 sqm employment floorspace within the plan period to 2037 due to need to deliver infrastructure first | No change necessary. Section 27 of the JPA1.1 (Heywood Pilsworth) Topic Paper [10.01.54] sets out the anticipated phasing of development on the site. | Landowners of Holme Valley |
| JPA1.1_JPA1.1.14 | Support for the principle and the wording of the allocation | Support noted. | Historic England |
| JPA1.1_JPA1.1.176 | Concerns regarding the site's suitability and deliverability to accommodate housing development, which based on the draft Development Framework Plan would clearly result in the development of a small residential area that is isolated from and poorly connected to other residential areas and from any wider development. | No change necessary. The proposed residential development at Castle Road is considered to be suitable. | Hollins Strategic Land |
| | Housing (incl. affordable housing) | | |
| JPA1.1_JPA1.1.15 | Will be expensive executive homes. Affordable home prices will not be affordable. | No change necessary. The ambition for the site has always been to maximise the potential for the delivery of affordable housing (in line with local affordable housing policy requirements). As summarised in the JPA1.1 (Heywood/Pilsworth) Topic Paper [10.01.54] an affordable housing contribution of 25% has been shown to be deliverable. Development proposals on this site would be subject to further viability assessment(s) at the detailed | Helen Roberts Greater Manchester Housing Providers |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|--|---|--|
| | | application stage, taking into account policy requirements in place at that time. | |
| JPA1.1_JPA1.1.16 | Support – land is available for development. More housing needed closer to the planned jobs. | Support noted. | Neil Lewis |
| JPA1.1_JPA1.1.17 | The latest data should be used to calculate housing need as the housing requirement is overestimated by out-of-date data. | No change necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. | David Bentley Juliet Eastham Matthew Oxley John Roberts |
| JPA1.1_JPA1.1.18 | Housing need must be re-assessed using the latest (2018) ONS population predictions and housing figures/employment projections should take into account the effect of Covid on work patterns and Brexit, especially with the increase in working from home and the number of jobs lost from the retail sector. | No change necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. As detailed in Chapters 1, 6 and 7 of the PfE Plan, two assessments of the potential impacts of Covid-19 and Brexit on the economy were carried out, initially in 2020 and again in 2021. Both assessments concluded that there was insufficient evidence to amend the assumptions underpinning the PfE Plan. For further information see COVID-19 and Places for Everyone Growth Options [05.01.03] . Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | See Appendix |
| JPA1.1_JPA1.1.19 | There is no indication of how delivery targets will be maintained. A strategy to guarantee housing delivery rates must be provided. | No change necessary. Section 27 of the JPA1.1 (Heywood Pilsworth) Topic Paper [10.01.54] sets out the anticipated phasing of development on the site. | See Appendix |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|--|---|--------------------|
| JPA1.1_JPA1.1.20 | Build low cost, housing near the low income jobs on near the industrial estates instead of making already low income families having to travel miles and adding additional pollution. | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). This approach will create a more balanced distribution of jobs across Greater Manchester. | Le-Anne Bradbury |
| JPA1.1_JPA1.1.21 | The Housing Need Assessment was carried out by Arc4, who were supposed to carry out a non-biased survey of housing need. However, they have a partnership with Greater Manchester Housing Partnership, an organisation of housing associations, including Six Town Housing in Bury. The assessment was therefore not impartial. | No change necessary. Bury's HNDA is considered to be robust and credible evidence of the needs and demands for housing in Bury. | Juliet Eastham |
| JPA1.1_JPA1.1.22 | The viability of this site is noted to have been calculated with a 25% contribution towards affordable housing in Bury and at 7.5% of GDV in Rochdale. However, because the PfE Plan does not specify the conditions for delivering affordable housing throughout the Plan, it is uncertain whether these figures are based on correct and reasonable assumptions. | No change necessary. The figures for affordable housing are based on the adopted policies within Bury and Rochdale. | Juliet Eastham |
| JPA1.1_JPA1.1.23 | Build rates will not be met and are unrealistic | No change necessary. Section 27 of the JPA1.1 (Heywood Pilsworth) Topic Paper [10.01.54] sets out the anticipated phasing of development on the site. | Juliet Eastham |
| JPA1.1_JPA1.1.24 | Government guidance is clear that standard housing methodology is just a starting point and can be changed in exceptional circumstances – this has not been thoroughly explored | No change necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local | Juliet Eastham |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|--|--|--|
| | | authorities with a clear and consistent understanding of the number of new homes needed in an area. | |
| JPA1.1_JPA1.1.25 | There is no detail on the quantity of each type of housing, the amount of affordable housing or the impact of such housing on social services, schools hospitals etc. | No change necessary. Policy JPA1.1 states that any proposals for this allocation must be in accordance with a comprehensive masterplan relating to the area to come forward in the plan period that has been previously approved by the LPA(s). It shall include a clear phasing strategy as part of an integrated approach to the delivery of infrastructure to support the scale of the whole development in line with Policy JP-D1 'Infrastructure Implementation'. A number of other policies in the Plan provide a sufficient policy framework to address this matter by requiring new development to be supported by the necessary infrastructure. The Plan needs to be read as a whole, therefore no change is considered necessary. | Helen Roberts D W And J Tandy John Roberts |
| JPA1.1_JPA1.1.26 | Support for use of land at Castle Road for housing allocation of around 200 dwellings. | Support noted. | A & P Massey |
| JPA1.1_JPA1.1.27 | The development will impact upon house prices and will not provide any compensation for this to existing residents. | No change necessary. The potential impact of the proposal on house prices is not a consideration in determining the suitability of the proposed JPA1.1 allocation at Heywood/Pilsworth. | Ian Taylor Angela Taylor |
| JPA1.1_JPA1.1.28 | Concern that elsewhere in PfE there are clear statements and objectives for mixed tenure new housing development in economic growth areas however this is not reflected in the Northern Gateway vision | No change necessary. Policy JPA1.1 (Heywood/Pilsworth) is a cross-boundary allocation that falls within Bury and Rochdale boroughs. The Policy specifies that affordable housing will be required in accordance with local planning policy requirements. It does not specify the tenure split as there are different requirements within each district based on the adopted policies within Bury and Rochdale. | Greater Manchester Housing Providers |
| JPA1.1_JPA1.1.29 | Concern that while there is reference to custom build/self-build housing, there is a lack of detail | No change necessary. There is a statutory duty to grant sufficient permissions for enough serviced plots to meet the | Greater Manchester Housing Providers |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|--|---|------------------------------------|
| | on scale and how this is proposed to be delivered. | needs for custom/self-build homes in the area and the allocation should contribute towards meeting this need. | |
| JPA1.1_JPA1.1.30 | The assessment of housing and employment need (option 2) is politically motivated and divorced from actual housing and employment needs. | No change necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | David Bentley |
| JPA1.1_JPA1.1.31 | The site and residential allocation at Castle Road is deliverable, suitable and available. | Noted. | Countryside Properties (UK) Ltd |
| JPA1.1_JPA1.1.32 | Support: the allocation of 200 residential dwellings would generate several economic benefits. | Support noted. | Countryside Properties (UK) Ltd |
| | Employment | | |
| JPA1.1_JPA1.1.33 | More detail required on jobs created, investors. | No change necessary. PfE is seeking to allocate the Heywood Pilsworth site (JPA1.1) for employment-led development. It is too early in the process to consider the specific businesses and types of jobs that could be accommodated on the site. Nevertheless, the site promoter has prepared a study highlighting the economic benefits of the proposal [10.01.10] which indicates that the site has the potential to generate around 20,000 new jobs. | David McLaughlin |
| JPA1.1_JPA1.1.34 | Support – Provides significant employment opportunities and new impetus for regeneration. | Support noted. | Neil Lewis Middleton SC Limited |
| JPA1.1_JPA1.1.1 | Disproportionate distribution of employment land. | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly | Angela Taylor |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|---|---|---|
| | | boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). | |
| JPA1.1_JPA1.1.3 | No need when existing estates in area are below capacity. | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). | Jane Wagner |
| JPA1.1_JPA1.1.35 | The proposed employment numbers have not been justified, warehousing is predominantly automated and does not require much manpower, therefore the specified number of homes is not required. | No change necessary. The site promoter has prepared a study highlighting the economic benefits of the proposal [10.01.10] which indicates that the site has the potential to generate around 20,000 new jobs. | John Roberts |
| JPA1.1_JPA1.1.36 | Major partners for employment provision should be identified. The original GMSF plan had potential partners, but it is now understood that these partners have since moved elsewhere. The whole basis of this plan is therefore flawed | No change necessary. PfE is seeking to allocate the Heywood Pilsworth site (JPA1.1) for employment-led development. It is too early in the process to consider the specific businesses and types of jobs that could be accommodated on the site. 'Potential partners' have never been identified in previous versions of the GMSF. | See Appendix |
| JPA1.1_JPA1.1.37 | Although it is clearly appropriate that facilities and services to meet immediate day to day needs of residents of these new areas are provided as part of the development, these should be of an appropriate scale with the expectation that wider retail and service needs of new residents are met by the existing hierarchy of centres. This should be made clear either in the policy or supporting text so that the Local Centre and other facilities brought forward | No change necessary. Policy JPA1.1 (Heywood/Pilsworth) states that development on this site will be required to incorporate an appropriate range of supporting and ancillary services and facilities. As such these will need to be of a scale that is purely ancillary to the wider development. | Middleton SC Limited (Owners of the Middleton Shopping Centre, Middleton) |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|---|---|---|
| | as part of these allocations do not harm the vitality and viability of existing town centres. | | |
| JPA1.1_JPA1.1.38 | Support - if appropriately developed, these allocations have the potential to help support the revitalisation of existing centres such as Middleton through the new residents and jobs brought to the area. | Support noted. | Middleton SC Limited (Owners of the Middleton Shopping Centre, Middleton) |
| JPA1.1_JPA1.1.39 | The plan states unrealistic employment figures as a result of building more industrial units, even through the existing site in this particular area is not, and has never been at 100% occupation since these plans began. The suggested employment figures appears to be based on some acceptable formulation rather than taking a more realistic view. The majority of large industrial units these days are more automated business that attract minimal employment opportunities and often low paid. | No change necessary. Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | Le-Anne Bradbury John Roberts |
| JPA1.1_JPA1.1.40 | We have so many vacant industrial units in the Greater Manchester area. These should all be filled before we build more. | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). | Lindsay Earnshaw |
| JPA1.1_JPA1.1.41 | Would request that a strategic study is carried out into the total requirements of the Greater Manchester region for such facilities and that no further development of this type is permitted until future needs are clearly established and unless those already granted planning permission will reach capacity before 2037 | No change necessary. Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | Greater Manchester Bird Recording Group |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|--|---|---|
| JPA1.1_JPA1.1.42 | The additional warehousing and housing exceeds the governments predicted requirements of the area | No change necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | Tracy Raftery |
| JPA1.1_JPA1.1.43 | Not sound as warehousing already comprises a disproportionate share of Oldham's and Rochdale's economies, accounting for around a quarter of all the warehousing space in Greater Manchester. The North-East Growth Corridor would further exacerbate this imbalance. | No change necessary. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). The proposal for the Heywood/Pilsworth site is not a purely warehousing development. The site is also proposed for industrial development, including the incorporation of an Advanced Manufacturing Park. | Save Royton's Greenbelt Community Group |
| JPA1.1_JPA1.1.44 | Note on Employment Land needs in Greater Manchester (February 2020) concludes that due to the decline of manufacturing the requirement for new industrial and warehousing floor space is largely driven by the demand for storage and distribution facilities. However, compounded GVA growth for storage and distribution between 2004 and 2018 has seen slower growth than that of the overall economy in Greater Manchester (7 percent compared to 20 percent). This economic model will not deliver the "significant increase in economic growth" as promised by Policy JP- | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | Save Royton's Greenbelt Community Group |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|---|---|---|
| | <p>Strat 6, nor will it deliver a “better distribution of growth across Greater Manchester” in line with Policy JP-J 1 (G7). The GMCA’s own data shows that a better distribution of economic growth would be delivered by diversifying industry, not by doubling down on more of the same. As it stands, PfE will oversee a widening of the wealth gap between the North and South of the conurbation.</p> | | |
| JPA1.1_JPA1.1.45 | <p>The supply of such a large quantity of floor space (over 1 million sqm over the course of the plan and potentially 2 million sqm beyond the lifespan of the plan) in such a confined area is also a sub-optimal use of employment space. Storage and distribution facilities have a GEA employment density (sqm per FTE job) of almost double general industrial, and both compare unfavourably to the densities of office jobs. The low employment densities and low GVA of warehousing will lead to low levels of job creation (compared to employment zones of similar GM10GEA) and low wealth creation (in comparison to the rest of the plan area).</p> | <p>No change necessary. The proposal for the Heywood/Pilsworth site is not a purely warehousing development. The site is also proposed for industrial development, including the incorporation of an Advanced Manufacturing Park.</p> | Save Royton's Greenbelt Community Group |
| JPA1.1_JPA1.1.46 | <p>Storage and distribution is extremely susceptible to automation. In its employment land projections, PfE bases its projections on the assumption that the employment density of warehousing will not change, which is unlikely.</p> | <p>No change necessary. Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. The proposal for the Heywood/Pilsworth site is not a purely warehousing development. The site is also proposed for</p> | Save Royton's Greenbelt Community Group |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|------------------|--|---|---|
| | | industrial development, including the incorporation of an Advanced Manufacturing Park. | |
| JPA1.1_JPA1.1.47 | A number of sites already compete for similar business. There will be two industrial sites within close proximity of each other (one adjacent to M62 and one in Heywood). The current industrial site in Bury is half empty therefore we will just be left with empty premises again and this site is not needed. | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). | Jane And Malcolm Wagner Thornham St John's Neighbourhood Forum |
| JPA1.1_JPA1.1.48 | The expansion of warehousing activities in Bury, with the consequent increase in HGV movement (also inconsistent with Bury Councils declaration of a climate emergency and its commitment to achieve carbon neutrality by 2038) demonstrates a failure to consider environmental consequences or sustainability with regard to carbon emissions/carbon neutrality, particularly in respect of both the Climate Change Act and Clean Air Act. | No change necessary. The Integrated Appraisal (IA) Scoping Report [02.01.01] notes that the declaration of climate emergencies by GMCA and the 10 local authorities was the most significant shift since the previous update to the Scoping Report. The IA objectives and criteria particularly related to climate emergency were carefully considered to establish whether there has been a material change requiring an amendment. As a result of the update, it is concluded that no additions or changes are required to the IA at this stage. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the employment land needs and supply can be found in the Employment Topic Paper [05.01.04] , the details of the housing land needs and supply can be found in the Housing Topic Paper [06.01.03] . Further details in relation to the strategic case for releasing | Susan Sollazzi CPRE Helen Roberts |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|-------------------------------------|
| | | Green Belt can be found in the Green Belt Topic Paper [07.01.25] . | |
| JPA1.1_JPA1.1.49 | Employment is proposed in the east of the town, but the proposed housing plan is mainly for the west of the town, creating even more traffic through Bury centre, should these jobs actually materialise. | No change necessary. The proposed employment site at the Northern Gateway (Heywood/Pilsworth) (JPA1.1) is a site of sub-regional significance in terms of helping to fulfil the plan's objective to create a more balanced economy across Greater Manchester by increasing economic output from the north of the conurbation. As such, the location of housing in relation to the Northern Gateway site should not simply be looked at in the context of Bury. The Local Authorities and TfGM have a clear policy direction and major programme of investment in sustainable transport which is expected to transform travel patterns in GM and help achieve our "Right Mix" vision of no net increase in motor-vehicle traffic by 2040. Our transport strategy is set out in the GM Transport Strategy 2040 [09.01.01] and GM Transport Strategy Our Five Year Delivery Plan 2021-2026 [09.01.02] . | D W And J Tandy Patricia Cooke |
| JPA1.1_JPA1.1.178 | There needs to be high quality jobs for people in Greater Manchester | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. Part of this includes the identification of strategic employment sites (such as the Northern Gateway) which will provide accessible jobs across the sub-region and reduce the need to commute longer distances to access work. | Bury Liberal Democrat Council Group |
| JPA1.1_JPA1.1.179 | We should focus employment in existing town and city centres with good public transport links. Bury's towns could make a strong case for better employment opportunities, particularly around higher quality provision of offices or for small and start up businesses. | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. A critical part of this includes the identification of a strategic employment site at Heywood/Pilsworth (JPA1.1). | Bury Liberal Democrat Council Group |

| Row | Summary of issues raised to PfE2021 | Summary response to issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|--|--------------------|
| | | Whilst it is recognised that town centres have an important role to play in accommodating employment uses (particularly office development), they are generally not suited to industrial and warehousing uses – particularly at the scale needed. | |
| JPA1.1_JPA1.1.180 | The employment opportunities proposed mainly planned for Manchester and Salford and with only low paid warehouse type jobs available in Bury | No change necessary. A key aim of the plan's strategy is to rebalance the Greater Manchester economy and significantly boost economic output from the north. Part of this includes the identification of strategic employment sites (such as the Northern Gateway) which will provide accessible jobs across the sub-region and reduce the need to commute longer distances to access work. The proposed employment-led development at Heywood/Pilsworth (Policy JPA1.1) includes provision for industrial and warehousing uses. The Policy specifies that this development should comprise a mix of high quality employment premises in an attractive business park setting in order to appeal to a wide range of business sectors including the development of an Advanced Manufacturing Park. It is anticipated that this will generate high quality employment opportunities. | Ann Collins |
| JPA1.1_JPA1.1.181 | The plan is based on providing 20,000 new jobs between Bury and Rochdale. Those in Bury would be based in the East of the town, but the proposed housing plan is mainly for the West of the town, creating even more traffic through Bury centre. | No change necessary. The proposed strategic allocations have been chosen following a robust site selection exercise - see site selection material within the evidence base. | D W And J Tandy |
| | Green Belt | | |
| JPA1.1_JPA1.1.50 | Release of Green Belt disproportionate in this area of the Borough and compared to other districts. | No change necessary. Bury covers a total area of 9,954 hectares and, of this, 5,927 hectares (59.5%) is currently designated as Green Belt. This is currently the second | Lisa Dysch |

| | | <p>highest proportion of Green Belt coverage of any of the nine participating Greater Manchester districts and significantly higher than the average across the nine districts which currently stands at 46.7% Green Belt coverage.</p> <p>The proposals in PfE to reduce this by 519 hectares would mean that 5,408 hectares would remain as Green Belt land. This would mean that 54.3% of the borough would remain Green Belt land. This would be the third highest of the nine participating districts, behind only Rochdale and Wigan. This is higher than the total of 45.2% across the PfE plan area and Bury would remain as only one of four districts that had over half of their borough's designated as Green Belt.</p> | |
| JPA1.1_JPA1.1.51 | Will result in the merging of towns and urban sprawl. | <p>No change necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the employment land needs and supply can be found in the Employment Topic Paper [05.01.04], the details of the housing land needs and supply can be found in the Housing Topic Paper [06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25].</p> | <p>Louise Davenport Anne McNally Juliet Eastham Helen Skidmore SGMGB Stephen Cluer Angela Taylor</p> |
| JPA1.1_JPA1.1.52 | Opposition to development on Green Belt, citing a lack of exceptional circumstances to amend the boundaries and a desire to preserve the existing green belt. | <p>No change necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of</p> | See Appendix |

|-----------------|---|---|---------------------------------------|
| | | that it makes a positive contribution to its coherence and character. | |
| JPA1.2_JPA1.2.5 | When you factor both parts of the Northern Gateway together, it is clear that the impact of this scale of development will be worse than significant. Both allocations individually and cumulatively are unacceptable | <p>No change is considered to be necessary. In line with NPPF, the Plan seeks to promote the development of brownfield land within the urban area and to use land efficiently. By working together the nine districts have been able to maximise the supply of the brownfield land at the core of the conurbation and limit the extent of Green Belt release. Chapter 4 (4.1 - 4.23) summarises the PfE Spatial Strategy which seeks to deliver significant development in the core growth area, boost the competitiveness of the Northern Areas and sustain the competitiveness of the Southern Areas. The approach to growth and spatial distribution is set out in the Growth and Spatial Options Paper [02.01.10]. The allocation forms part of the Northern Gateway and is positioned at a strategically important intersection around the M60, M62 and M66 motorways. As such, it represents a highly accessible opportunity for growth in Greater Manchester, with wider benefits on a regional and national level.</p> <p>The allocation is of a scale to address the central theme of the spatial strategy for Greater Manchester in delivering inclusive growth across the city region complemented by a key aim to boost the competitiveness and economic outputs from the northern parts of the conurbation. The Northern Gateway is one of the key locations that will help to deliver these fundamental objectives.</p> | Jane Lester SGMGB Stephen Cluer |
| JPA1.2_JPA1.2.6 | By pushing the issues back to be addressed at application stage and without clear demonstration on matters including highway impact, ecological issues and flood risk at this stage we would argue | No change is considered to be necessary. The requirement for a masterplan to be approved by the LPA in advance of the submission of a planning application is intended to ensure that the LPA is fully satisfied with the intended development. It is | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|--|--|---|
| | that this proposed allocation cannot be found to be sound. | considered that this will actually save time during the planning application process as key development parameters will have already been agreed. | |
| JPA1.2_JPA1.2.7 | As a result of the scale and form of development being proposed, the character and setting of these semi-rural villages will be totally lost and swallowed up by the new community being proposed within this major allocation. The character of the area will be completely changed and, in all reality, this will now become a large part of the general Greater Manchester urban area, as opposed to the semi-rural setting it currently benefits from. | No change necessary. Policy JP-P1 seeks to create sustainable places including the use of measures to ensure that new development is fully integrated into existing communities and that it makes a positive contribution to its coherence and character. | Jane Lester SGMGB Stephen Cluer David McLaughlin Jane Wagner |
| JPA1.2_JPA1.2.8 | Simister and Bowlee JP Allocation 1.2 fails to meet 6 of the 10 Strategic Objectives. | It is considered that the proposed site allocation at Simister/Bowlee is consistent with the plan's wider strategy. | LouiseHolland |
| JPA1.2_JPA1.2.9 | GMCA have chosen the wrong site as part of their vision for a huge employment site and 1550 homes in a village that currently has 350 homes. | No change is considered to be necessary. In line with NPPF, the Plan seeks to promote the development of brownfield land within the urban area and to use land efficiently. By working together the nine districts have been able to maximise the supply of the brownfield land at the core of the conurbation and limit the extent of Green Belt release. Chapter 4 (4.1 - 4.23) summarises the PfE Spatial Strategy which seeks to deliver significant development in the core growth area, boost the competitiveness of the Northern Areas and sustain the competitiveness of the Southern Areas. The approach to growth and spatial distribution is set out in the Growth and Spatial Options Paper [02.01.10] | LouiseHolland |
| JPA1.2_JPA1.2.10 | Supported to help deliver the new homes and jobs that the northern parts of Greater Manchester needs. | Support noted. | Middleton SC Limited (Owners of the Middleton Shopping Centre, Middleton) |
| JPA1.2_JPA1.2.11 | Looked at in conjunction with JPA 1.1 Heywood/Pilsworth the whole area will be turned | No change is considered to be necessary. The allocation is of a scale to address the central theme of the spatial strategy for | Jane Lester |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |

|------------------|--|--|--------------------|
| | | <p>is one of the key locations that will help to deliver these fundamental objectives.</p> <p>The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the housing land needs and supply can be found in the Housing Topic Paper[06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25].</p> | |
| JPA1.2_JPA1.2.15 | <p>Support the allocation but revised wording to the policy suggested in order to reflect that the two identified areas could come forward independently of each other and, in this scenario, some of the criteria may be less relevant to the respective applications. Amendments are needed to the policy to reflect this and which are needed to facilitate early delivery of development at the site (eastern part) and in doing so maximising its contribution to realising the ambitions of PfE.</p> | <p>No change is considered to be necessary. It is considered appropriate that Policy JPA1.2 (Simister/Bowlee) covers the complete allocation.</p> <p>The Policy specifies that any proposals for this allocation must be in accordance with a comprehensive masterplan that has been previously approved by the LPA(s). This masterplan will establish the parameters for development across the site.</p> | Barratt Homes |
| JPA1.2_JPA1.2.16 | <p>The site is unsustainable in its current state and is not properly connected to an existing urban area of community. As a result, the site is deemed unsuitable for allocation.</p> | <p>No change is considered to be necessary. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01]. In addition, the plan and the strategic site allocations within it have been subject to an Integrated Appraisal – the conclusions of which are included in section 29 of the Simister and Bowlee Site Allocation Topic Paper [10.01.55]</p> | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|---|---|
| JPA1.2_JPA1.2.17 | The requirement for a comprehensive masterplan for the whole site allocation is not justified. This is not necessary in the context of the site comprising two distinct parts which can come forward independently of each other without prejudicing the development of the other. The requirement for a comprehensive masterplan across the piece could unnecessarily constrain the successful and early delivery of the site and its contribution to meeting the housing needs of the Boroughs. | No change is considered to be necessary. The requirement for a masterplan to be approved by the LPA in advance of the submission of a planning application is intended to ensure that the LPA is fully satisfied with the intended development. It is considered that this will actually save time during the planning application process as key development parameters will have already been agreed. | Barratt Homes |
| JPA1.2_JPA1.2.18 | Support for the principle and the wording of the allocation | Support noted. | Historic England |
| JPA1.2_JPA1.2.161 | The site does not meet the site selection criteria | No change is considered to be necessary. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01] . | Matthew Brown Philip Smith-Lawrence C Smith |
| JPA1.2_JPA1.2.153 | The site selection process has been unclear and little information has been given about why other more apparently suitable sites were rejected, or what alternatives were considered This site choice cannot be justified as the most appropriate when no reasonable alternatives appear to have been examined. Alternative options were ruled out too early or were not considered despite other areas having similar if not more appropriate criteria. Other sites could satisfy all the criteria. | No change is considered to be necessary. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01] . | See Appendix |
| JPA1.2_JPA1.2.171 | Northern Gateway JPA1.1 Heywood/Pilsworth & JPA1.2 Simister/Bowlee, JPA26 Trows Farm, and JPA21 Castleton Sidings, will create knock-on effects on proposals at JPA2 Stakehill. | No change is considered to be necessary. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01] . | Thornham St John's Neighbourhood Forum |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |

| | Housing (incl. affordable housing) | | |
| JPA1.2_JPA1.2.19 | Does not cater for affordable/specialist housing needs. Needs to be environmentally friendly and delivered at appropriate densities. | No change is considered to be necessary. The Simister and Bowlee allocation has the potential to deliver around 1,550 homes in order to diversify the type of accommodation across the Simister, Bowlee and Birch and Langley areas. This will include plots for custom and self-build and a mix of housing densities plus provision of affordable housing to address local housing need. | Susan Hamer Brenda Foley Lynne Hastings |
| JPA1.2_JPA1.2.20 | Housing growth should be distributed more evenly across Bury. | No change is considered to be necessary. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01] . Furthermore, as part of the process of preparing the Joint Plan one of the requirements is to demonstrate how the amount and spatial distribution of growth across the plan area has been chosen. This is set out in the Growth and Spatial Options Paper [02.01.10] which sets out how the options have evolved during plan preparation and the reasonable alternatives that have been considered. | Jane And Malcolm Wagner |
| JPA1.2_JPA1.2.21 | The Housing Need Assessment was carried out by Arc4, who were supposed to carry out a non-biased survey of housing need. However, they have a partnership with Greater Manchester Housing Partnership, an organisation of housing associations, including Six Town Housing in Bury. The assessment was therefore not impartial. | No change necessary. Bury's HNDA is considered to be robust and credible evidence of the needs and demands for housing in Bury. | See Appendix |
| JPA1.2_JPA1.2.22 | The most up to date information must be used to assess the housing need. | No change is considered to be necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|---|---|-------------------------------|
| JPA1.2_JPA1.2.23 | Because the PfE Plan does not specify the conditions for delivering affordable housing throughout the Plan, it is uncertain whether the viability figures are based on correct and reasonable assumptions | No change is considered to be necessary. The figures for affordable housing are based on the adopted policies within Bury and Rochdale. | See Appendix |
| JPA1.2_JPA1.2.24 | It is unlikely that build rates and housing delivery targets will be met. | No change is considered to be necessary. Details of the anticipated phasing for Simister and Bowlee are set out in Section 27 of the Site Allocation Topic Paper for Simister/Bowlee [10.01.55] . | See Appendix |
| JPA1.2_JPA1.2.25 | Government guidance is clear that standard housing methodology is just a starting point and can be changed in exceptional circumstances – this has not been thoroughly explored. A lack of brownfield land in the area and in particular the economic shock caused by Brexit and Covid 19 have not been considered. | No change is considered to be necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. As detailed in Chapters 1, 6 and 7 of the PfE Plan, two assessments of the potential impacts of Covid-19 and Brexit on the economy were carried out, initially in 2020 and again in 2021. Both assessments concluded that there was insufficient evidence to amend the assumptions underpinning the PfE Plan. For further information see COVID-19 and Places for Everyone Growth Options [05.01.03] . | See Appendix |
| JPA1.2_JPA1.2.26 | A significant proportion of population growth (and housing need) over the Plan period will be in the over 65's. These groups will want housing in highly accessible locations close to local amenities, which this proposal does not provide | No change is considered to be necessary. The allocation policy (JPA1.2) requires the delivery of a broad mix of houses which includes an appropriate mix of house types and sizes and accommodation for older people. | Gillian Boyle |
| JPA1.2_JPA1.2.27 | The table in the Bury's Housing Development Needs Assessment 2020 shows that housing need has already been met in Prestwich without the need for | No change is considered to be necessary. The Greater Manchester Strategic Housing Market Assessment [06.01.02] provides evidence of local housing need, and specifically | Eric Larmett LouiseHolland |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|--|--|-------------------------------------|
| | new affordable homes. There is no need for more housing. | affordable housing need, and shows that there is a need for more affordable homes in the Borough of Bury. Bury's Housing Need and Demand Assessment shows that there is a need for affordable housing in all parts of the Borough. | |
| JPA1.2_JPA1.2.28 | Simister is already set to take 1.2 million square metres of industrial land so why has Bury Council not considered that the people who will work there will not wish to live across the road from work, and that other areas of Bury would have benefited from more homes. | No change is considered to be necessary. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01] . | LouiseHolland |
| JPA1.2_JPA1.2.29 | Agree that there needs to be additional housing in Bury and across Greater Manchester | Noted. | Bury Liberal Democrat Council Group |
| JPA1.2_JPA1.2.30 | We need the homes that people need, specifically a strong provision of housing units that suit younger people and also older people who wish to 'downsize' but remain close to family and friends. | No change is considered to be necessary. The Simister and Bowlee allocation has the potential to deliver around 1,550 homes in order to diversify the type of accommodation across the Simister, Bowlee and Birch and Langley areas. This will include plots for custom and self-build and a mix of housing densities plus provision of affordable housing and older person housing to address local housing need. | Bury Liberal Democrat Council Group |
| JPA1.2_JPA1.2.31 | We need the homes that people can afford. We currently have a crisis that an increasing number of people are being excluded from buying their own home and are trapped living with parents, or trapped in high rental accommodation. We need to provide a good mixture of housing that means people can find the homes they need and can afford. | No change is considered to be necessary. The ambition for the site has always been to maximise the potential for the delivery of affordable housing (in line with local affordable housing policy requirements). As summarised Section 26 of the JPA1.2 (Simister/Bowlee) Topic Paper [10.01.55] , an affordable housing contribution of 25% has been shown to be deliverable. Development proposals on this site would be subject to further viability assessment(s) at the detailed application stage, taking into account policy requirements in place at that time. | Bury Liberal Democrat Council Group |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|--|---|---------------------------------------|
| JPA1.2_JPA1.2.32 | The additional housing and warehousing exceeds the governments predicted requirements of the area. | No change is considered to be necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. Unlike for housing need, there is no standard methodology for calculating employment land need. However, as detailed in the paper Employment Land Needs in Greater Manchester [05.01.02] the approach adopted is considered to be a robust, widely accepted methodology. | Tracy Raftery |
| JPA1.2_JPA1.2.33 | The number of new homes planned in Simister is disproportionate to those being built in other areas. Some towns in Bury are largely untouched. | No change is considered to be necessary. The scale of the proposed allocation presents an opportunity to deliver the necessary infrastructure required to support the proposed development. The proposed strategic allocations have been chosen following a robust site selection exercise outlined within the Site Selection Topic Paper [03.04.01] . | Tom Hall-Spencer Rhea Hall-Spencer |
| JPA1.2_JPA1.2.34 | The draft policy is based on an unjustified assumption that the land to the east of Heywood Old Road will deliver only 200 units. There is no justification for this restriction which would represent an inefficient use of the site. | No change is considered to be necessary. Discussions relating to masterplanning identified issues in terms of the topography which were likely to impact on the number of dwellings that could be accommodated on the site. Consequently, to ensure the delivery of a high-quality scheme and meet the other requirements of JP Allocation 1.2, it was considered necessary to assume a lower capacity at this stage. This was considered appropriate in order to ensure that the housing needs identified in the plan could be met. | Barratt Homes |
| JPA1.2_JPA1.2.35 | Any requirement for specialist forms of housing (older people, custom and self-build) should be subject to there being a demonstrable need for this. | No change is considered to be necessary. The Simister and Bowlee allocation has the potential to deliver around 1,550 homes in order to diversify the type of accommodation across the Simister, Bowlee and Birch and Langley areas. This will include plots for custom and self-build and a mix of housing densities plus | Barratt Homes |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|--|--------------------------------------|
| | | provision of affordable housing and accommodation for older people to address local housing need. The Greater Manchester Strategic Housing Market Assessment [06.01.02] Chapter 6 provides evidence in relation to the housing needs of specific groups. | |
| JPA1.2_JPA1.2.36 | More investment in the existing housing stock such as grants for home insulation, roof repair, affordable heating and safe electrical circuits. | This is not considered to be a relevant issue for PfE. | Lynne Hastings |
| JPA1.2_JPA1.2.37 | There is a lack of priority around affordable housing provision. Elsewhere in PfE, there are clear statements and objectives for mixed tenure new housing development in economic growth areas, but this is not reflected in the Northern Gateway vision. Reference to delivery in line with local planning policy but this will not be completely consistent between Rochdale and Bury and it would be helpful to have consistency across the site | No change is considered to be necessary. Policy JPA1.2 (Simister and Bowlee) is a cross-boundary allocation that falls within Bury and Rochdale boroughs. The Policy specifies that affordable housing will be required in accordance with local planning policy requirements. It does not specify the tenure split as there are different requirements within each district based on the adopted policies within Bury and Rochdale. | Greater Manchester Housing Providers |
| JPA1.2_JPA1.2.178 | The topic paper suggests that first completions on the site would take place 2 years (24/25) after the assumed (and ambitious) adoption of the Plan, with the sites in Bury starting to deliver the following year (2025/26) just three years after the assumed adoption of the plan. There is limited evidence provided to support these assumptions with the topic paper referring to delivery on four separate outlets each with a delivery rate of up to 50 dwellings per year. | No change is considered to be necessary. Section 27 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] sets out the anticipated phasing of development on the site. | Hollins Strategic Land |
| JPA1.2_JPA1.2.179 | the assumption that this site could deliver completions within 2 years of the plan adoption, is entirely unrealistic given the policy requirements for | No change is considered to be necessary. Section 27 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] sets out the anticipated phasing of development on the site. | Hollins Strategic Land |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|---|--|
| | a comprehensive masterplan to be prepared and approved, including agreed between the various landowners / site promoters | | |
| JPA1.2_JPA1.2.180 | Average lead-in times for sites of this scale (i.e. 1,500-1,999 dwellings) is 7 years from the validation of the first application, allowing for sufficient time to secure planning permission, discharge relevant planning conditions and actually construct and complete the new homes. This is a significant lead in time, which is unsurprising given that such sites are complex and will inevitably require outline planning permissions, following by subsequent phased reserved matters submissions, in order to ensure that the site and infrastructure comes forward in accordance with any identified masterplans. As such, we have assumed at least 5 years from the adoption of the plan as a very optimistic estimate of the first completions | Noted. | Hollins Strategic Land |
| JPA1.2_JPA1.2.173 | Queries 2014 housing numbers, failed housing delivery targets and local housing need | No change is considered to be necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. | Natasha Cross Gary West Susan Hamer Alexandra Cluer Helen Roberts C Smith Michael Minett |
| JPA1.2_JPA1.2.175 | The most recent Bury Housing Development Needs Assessment 2020 must be taken into consideration | No change is considered to be necessary. The starting point for housing targets is the Government's standard methodology for calculating Local Housing Needs (LHN). This is designed to provide local authorities with a clear and consistent understanding of the number of new homes needed in an area. | Please see attached JPA1.2_JPA1.2.175 |

| | | Green Belt land. The details of the housing land needs and supply can be found in the Housing Topic Paper[06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25]. | |
| JPA1.2_JPA1.2.59 | Growth must not come at the expense of quality of life. Greater Manchester's green belt has 'done what it was intended to do' very successfully over the 50/60 years by ensuring that there are 'green gaps' between our towns and communities. We believe these green gaps are worth preserving to provide gaps between our towns, space for leisure and also something to alleviate the high levels of air pollution we suffer from. | No change considered necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the housing land needs and supply can be found in the Housing Topic Paper[06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25]. | Bury Liberal Democrat Council Group |
| JPA1.2_JPA1.2.60 | <p>Calls for zero loss of green belt land. The Mayor of Greater Manchester promised zero net loss of Green Belt in the run up to his election and he should stand by that promise through:</p> <ul style="list-style-type: none"> • Making maximum use of brown field sites across all ten districts. • Reviewing density on all existing sites to ensure maximum housing provision on sites to be used. • Duty to cooperate and working with neighbouring boroughs. • Being more ambitious in plans to revitalise Town Centres to provide higher density living. | No change is considered to be necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the housing land needs and supply can be found in the Housing Topic Paper[06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25]. | Bury Liberal Democrat Council Group |
| JPA1.2_JPA1.2.61 | The level of harm to the Green Belt is much higher than the former allocation site GM 1.3 Whitefield. It is calculated that 217.9 hectares of land within GM1.2 has a higher harm rating than GM 1.3 and as | No change is considered to be necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet | The Strategic Land Group |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|---|--|---|
| | the proposal is a residential led (around 1,550 homes) part of the Northern Gateway, like GM1.3, it would not deliver any more benefits than GM 1.3, but would result in more harm in terms of the impact on the Green Belt than GM1.3. | the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the housing land needs and supply can be found in the Housing Topic Paper[06.01.03]. Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25]. | |
| JPA1.2_JPA1.2.62 | Loss of Greenbelt will destroy environmental habitats, wildlife and will impact on leisure and the wellbeing of the population. | No change is considered to be necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an ecological report 2020 [10.01.015]. Furthermore, Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | Ann Yates Ian Smith Lucy Hamblett Susan Hamer Robert Cahill Lynne Hastings |
| JPA1.2_JPA1.2.63 | The village currently is surrounded by green belt land, however is cut through by one of Europe's busiest and most polluted motorway sections. We require the "Green Gateway to offset this and retain the village identity. Especially as part of the PLACES FOR EVERYONE indicates this as a key requirement keeping a villages identity. | No change is considered to be necessary. The extent of the Simister and Bowlee allocation has been reduced significantly in the PfE 2021 compared to what was proposed in the 2019 draft in order to help preserve the character of Simister Village and reduce the amount of land to be removed from the Green Belt. | Ian Taylor |
| JPA1.2_JPA1.2.64 | Supports the reclassification of the fields surrounding the entrance to Simister as Greenbelt | Noted. | Ian Taylor |
| JPA1.2_JPA1.2.65 | The loss of the Simister and Bowlee site greenbelt has been partially offset by creating extensive but unusable greenbelt in other areas without justifying exceptional circumstances. | No change necessary. It is considered that there are exceptional circumstances justifying the identification of new areas of Green Belt. The additions have not been identified as direct replacements, either in their extent or the use of the land identified, for the areas proposed for release through allocation(s) in the Plan. There is not therefore intended to be a direct | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|--|--|--------------------------------|
| | | correlation between the areas released from the Green Belt and those proposed as additions. The justification for the Green Belt additions proposed is provided in Appendix 3 of the Green Belt Topic Paper [07.01.25] . | |
| JPA1.2_JPA1.2.66 | The Barratt site (eastern part of the site) does not fall within the Greenbelt and Exceptional Circumstances do not need to be proven to exist in order to justify the allocation of the site and any harm to the Green Belt resulting from the draft allocation does not apply to Barratt site. | Noted. | Barratt Homes |
| JPA1.2_JPA1.2.67 | The release of Greenbelt to facilitate economic growth is not acceptable. All Greenbelt land must be protected. | No change is considered to be necessary. The PfE Plan sets out a very clear preference of using previously developed (brownfield) land and vacant buildings to meet development needs in line with NPPF. However, given the scale of development required to meet the objectives of the Plan, a limited amount of development is identified on land outside of the urban area on greenfield and/or Green Belt land. The details of the housing land needs and supply can be found in the Housing Topic Paper [06.01.03] . Further details in relation to the strategic case for releasing Green Belt can be found in the Green Belt Topic Paper [07.01.25] . | Laura Etrick Jason Richards |
| JPA1.2_JPA1.2.68 | Suggestions of other brownfield sites to use include the Turner and Newall site in Rochdale. | No change is considered to be necessary. A large number of previously developed sites suitable for housing are identified in the council's Brownfield Land Register and its Strategic Housing Land Availability Assessment (SHLAA). However, these sites are insufficient to meet Bury's identified need and as such there is a need to identify additional sites. National planning policy does not support an explicit 'brownfield first' approach but PfE does propose a 'brownfield preference' | Peter Murray |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|------------------|--|--|--|
| | | policy, to help bring forward brownfield sites as early as possible in the plan period. | |
| JPA1.2_JPA1.2.69 | Developers should be encouraged to use all sites particularly small sites which have become derelict or run down as well as old mills and unused warehousing sites. We have ample Brownfield sites to develop first where infrastructure exists. Old existing Mills should be re-purposed into housing as has been done in the Northern Quarter in Manchester. | No change is considered to be necessary. A large number of previously developed sites suitable for housing are identified in the council's Brownfield Land Register and its Strategic Housing Land Availability Assessment (SHLAA). However, these sites are insufficient to meet Bury's identified need and as such there is a need to identify additional sites. National planning policy does not support an explicit 'brownfield first' approach but PfE does propose a 'brownfield preference' policy, to help bring forward brownfield sites as early as possible in the plan period. | Jillian Grisdale David McLaughlin Robert Bennett Sandra Radcliffe |
| JPA1.2_JPA1.2.70 | The GMCA has failed to utilise the current brownfield in GM | No change is considered to be necessary. A large number of previously developed sites suitable for housing are identified in the council's Brownfield Land Register and its Strategic Housing Land Availability Assessment (SHLAA). However, these sites are insufficient to meet identified need and as such there is a need to identify additional sites. National planning policy does not support an explicit 'brownfield first' approach but PfE does propose a 'brownfield preference' policy, to help bring forward brownfield sites as early as possible in the plan period. | LouiseHolland |
| JPA1.2_JPA1.2.71 | A lack of brownfield land in the area and in particular the economic shock caused by Brexit and Covid 19 have not been considered. There is insufficient confidence in the accuracy of the predictions in the current uncertain economic climate to justify Green Belt loss at the start of the plan. Greenbelt loss should only occur once all brownfield has been exhausted. A review mechanism should be built in | No change is considered to be necessary. As detailed in Chapters 1, 6 and 7 of the PfE Plan, two assessments of the potential impacts of Covid-19 and Brexit on the economy were carried out, initially in 2020 and again in 2021. Both assessments concluded that there was insufficient evidence to amend the assumptions underpinning the PfE Plan. For further information see COVID-19 and Places for Everyone Growth Options [05.01.03] . | See Appendix |

In addition, all sites associated with the allocations will be expected to prepare a Transport Assessment as part of a planning application to develop final, rather than indicative proposals, which mitigate the impact of the site. The full scope of the Transport Assessments will be determined by the Local Planning Authority (in consultation with the Local Highway Authority and National Highways) on a site-by-site basis, depending on the nature, scale and timing of the application, in accordance with the NPPF. | |
| JPA1.2_JPA1.2.91 | There are over 100 horses stabled in Simister and many need to ride on the roads. There are no pavements in the village and it is a very narrow road. Both pedestrians and horses will be in danger. | No change necessary. PfE Policy JPA 1.2 (Simister and Bowlee) requires that new development on the site will be required to provide off site highways works where these are necessary and deliver a network of safe and convenient walking routes through the allocation. | Jane And Malcolm Wagner |
| JPA1.2_JPA1.2.92 | No plan is in place for the properties along the top of Simister Lane where the road is unmade and very narrow. | No change necessary. The proposed PfE strategic housing allocation for Simister/Bowlee (JPA1.2) does not include provision for the properties referred to. | Jane And Malcolm Wagner |
| JPA1.2_JPA1.2.93 | The local transport network and local roads cannot support any additional traffic even with the new initiatives | No change necessary. The Transport Locality Assessments for Bury's Cross Boundary allocations [09.01.07] assess and evaluates the impact of the PfE proposals on the transport network. | See Appendix |
| JPA1.2_JPA1.2.94 | The footpath is very limited on Simister Lane. There is only one side of the road that has a footpath. After the Same Yet Pub there is no pavement at all making this very dangerous. | No change necessary. The scale of the proposed allocation presents an opportunity to deliver the necessary infrastructure required to support the proposed development including new and improved highways infrastructure and opportunities for cycling and walking routes. In addition, Policy JPA 1.2 also includes a requirement for any development on the site to make provision for off-site highway works where these are necessary to ensure acceptable traffic movement. | Angela Taylor |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|--|-------------------------------------|
| JPA1.2_JPA1.2.108 | Loss of green infrastructure and key ecological assets e.g. Bradley Hall Farm, many in decline. Proposed new green infrastructure corridors/enhancements not sufficient, risk of crime. | No change necessary. PfE Policy JPA 1.2 (Simister and Bowlee) requires that new development on the site make provision for new, high quality, publicly accessible, multi-functional green and blue infrastructure within the allocation to provide health benefits to local residents as well as creating a visually attractive environment. In addition, Policy JPA 1.2 (Simister and Bowlee) seeks to minimise impacts on and provide net gains for biodiversity assets within the allocation, including the Bradley Hall Farm SBI. | Tracy Raftery CPRE |
| JPA1.2_JPA1.2.109 | Loss of fields and key routes/rights of way used by both walkers and horse riders. Key routes and additional suggested routes should be protected. | No change necessary. PfE Policy JPA 1.2 (Simister and Bowlee) requires new development on the site to make provision for new, high quality, publicly accessible, multi-functional green and blue infrastructure within the allocation to provide health benefits to local residents as well as creating a visually attractive environment. | Bury Liberal Democrat Council Group |
| JPA1.2_JPA1.2.110 | Broadly welcome part 10 of the policy but request the inclusion of "sport" and recreation, as sport has a completely different function to recreation. Suggested amendment to part 10: Retain, enhance and replace existing "sport" and recreation facilities where required and make provision for new "sport" and recreation facilities to meet the needs of the prospective residents in accordance with local planning policy requirements | No change necessary. Whilst it is considered that this proposed wording could improve the clarity of the policy, it is not considered to be a soundness issue, therefore no change is proposed. | Sport England |
| JPA1.2_JPA1.2.111 | There has been a failure to conduct thorough and independent ecological assessments. Assessments carried out have been done on behalf of developers and are therefore not independent. Site wildlife, flood risk and other surveys have been carried out by consultancies on behalf of and paid for by | No change necessary. It is considered that the various assessments undertaken in relation to the site are comprehensive and robust. | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|---|--------------------|
| | developers rather than entirely independent wildlife organisations or the Department of the Environment so must be considered potentially biased. | | |
| JPA1.2_JPA1.2.112 | Several character areas are included in this allocation, such as National Character Area (54), Manchester Pennine Fringe, Simister, Slattocks and Heald Green, as well as Fringe Settled Valley Pasture and Settled Farmlands. These would all be destroyed if the development of this allocation were to proceed. | No change necessary. Evidence on Landscape Character Areas can be found in Section 18 of the Simister and Bowlee Allocation Topic Paper [10.01.55] . | See Appendix |
| JPA1.2_JPA1.2.113 | The site can be seen from a number of longer vantage points, as well as in the immediate neighbourhood. However, due to the scale, form, and nature of the proposed development, visual amenity will be adversely affected. The landscape mitigation proposals will not address these fundamental concerns. | No change necessary. Policy JPA 1.2 (Simister and Bowlee) requires the semi-rural nature the character and setting of small villages such as Simister and Bowlee to be respected and will inform the layout, density and built form of development in these locations. Areas of open land and green infrastructure will be incorporated to maintain the identities of these places, including the retention of historic field boundaries, routeways and woodlands where practical. Evidence on Landscape Character Areas can be found in Section 18 of the Simister and Bowlee Allocation Topic Paper [10.01.55] | See Appendix |
| JPA1.2_JPA1.2.114 | There are numerous key habitats on the site, including wetlands, woodland, grassland, arable land etc., which will all be damaged and could be lost as a result of this scheme. Additionally, the scheme will negatively impact protected species and species of principal importance, including great crested newts and Lapwing, as well as wider ecological networks, which have not been adequately considered in the plan. There is no consensus that biodiversity net gain can be | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15] . Ecological/biodiversity matters associated with Simister and Bowlee are also summarised in section 19 of the Simister and Bowlee Allocation Topic Paper [10.01.55] . | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|---|--------------------|
| | achieved at this site, given the extent of loss of existing vegetation and greenspace. We should find an alternative site of low ecological value. | | |
| JPA1.2_JPA1.2.115 | There is no guarantee that Biodiversity Net Gain will be delivered. | No change necessary. Policy JPA 1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | See Appendix |
| JPA1.2_JPA1.2.116 | Any new property should only be allowed if designed with energy saving and environmentally friendly features. | No change necessary. Climate change is a key theme running throughout PfE and it is only through a combination of actions that it can be properly addressed. This includes: Methods to de-carbonise the city region through new and existing development, effective land management and through the provision of infrastructure and new technologies. The aim of delivering a carbon neutral Greater Manchester no later than 2038, with a dramatic reduction in greenhouse gas emissions, including measures to ensure that all new homes and commercial/industrial buildings achieve net zero carbon by 2028. | Sandra Radcliffe |
| JPA1.2_JPA1.2.117 | During the covid pandemic the countryside walks was utilised by residents from Harpurhey, Salford that currently live in built up areas and needed somewhere to get freedom and fresh air, so removing those walks with the industrial and housing targets planned in places for everyone will actually ensure the opposite to Strategic Objective 8 to improve access to green spaces and the quality of our natural environment. | No change necessary. PfE Policy JPA 1.2 (Simister and Bowlee) requires new development on the site to make provision for new, high quality, publicly accessible, multi-functional green and blue infrastructure within the allocation to provide health benefits to local residents as well as creating a visually attractive environment. | LouiseHolland |
| JPA1.2_JPA1.2.118 | The area has the second highest noise pollution in the UK so why should it accept the employment | No change necessary. The area is not delivering the whole of GM's employment and housing needs. | LouiseHolland |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|--|
| | needs of the whole of GM, and all its allocation for houses? | Notwithstanding, PfE Policy JPA 1.2 (Simister and Bowlee) requires new development on the site to Incorporate appropriate noise and air quality mitigation measures and high quality landscaping along the M60 motorway corridors and local road network if required within the allocation. | |
| JPA1.2_JPA1.2.119 | The proposed industrial development will not avoid damage to the environment and climate, and will not allow the quality of life for future generations to be maintained. Massive increases in traffic and noise, destruction of wildlife habitats and loss of access to green spaces for existing residents will occur. | No change necessary. PfE Policy JPA 1.2 (Simister and Bowlee) requires new development on the site to make provision for new, high quality, publicly accessible, multi-functional green and blue infrastructure within the allocation to provide health benefits to local residents as well as creating a visually attractive environment. Furthermore, Policy JPA 1.2 (Simister and Bowlee) also requires new development on the site to Incorporate appropriate noise and air quality mitigation measures. | Tracy Raftery Jane Lester Sarah Fallon Susan Hamer Ian Taylor Robert Cahill Rhea Hall-Spencer Angela Taylor Jane And Malcolm Wagner Ann Collins |
| JPA1.2_JPA1.2.120 | Consider the Policy unsound for the following reason: Supports the proposals to create wetland habitat and to enhance the existing watercourse and riparian habitat across the allocation. Also supports the intent to protect and enhance Bradley Hall Farm SBI. Suggest that the policy to protect the SBI should also include the requirement to maintain the current green infrastructure linking the SBIs within and adjacent to the allocation and provide new areas of green infrastructure to maintain and enhance the ecological network within, across and around the allocation. | Noted. | The Wildlife Trusts |
| JPA1.2_JPA1.2.121 | Supports Policy 14. However, a complete assessment of the site's biodiversity interest was not possible and the full site area could not be | Noted. No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on | The Wildlife Trusts |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|---------------------|
| | <p>surveyed. Whilst this might be adequate for a preliminary ecological assessment; in order to meet the NPPF's test for soundness, the whole site will need to be surveyed in depth to provide an up to date and accurate assessment of its biodiversity interest</p> | <p>wildlife and ecological matters, including an Ecological Report (2020) [10.01.15]. Ecological/biodiversity matters associated with Simister and Bowlee are also summarised in section 19 of the Simister and Bowlee Allocation Topic Paper [10.01.55]</p> | |
| JPA1.2_JPA1.2.122 | <p>The Ecological Constraints and Opportunities Document acknowledges that specific constraints for each parcel of land has not been completed and so current constraints might have been missed and that this would need to be rectified. Suggest that the text be changed to low botanical value. The same applies to the assessment of arable areas. The ECOD concludes that more detailed site-specific surveys, including a full extended Phase 1 habitat survey for each area and Phase 2 protected species surveys will be required as plans progress. However, there is no indication within the ecological report as to how Species of Principal Importance (S41) can be protected and their populations enhanced.</p> | <p>Noted. No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15]. Ecological/biodiversity matters associated with Simister and Bowlee are also summarised in section 19 of the Simister and Bowlee Allocation Topic Paper [10.01.55]</p> | The Wildlife Trusts |
| JPA1.2_JPA1.2.123 | <p>The development framework shows that the areas of blue and green infrastructure are to be concentrated in a network of connected green corridors and ponds throughout the site. Whilst this network of green corridors linking important habitat to each other and the wider environment is welcomed the reliance on narrow corridors and linkages as mitigation will be</p> | <p>Noted. No change necessary. Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'.</p> | The Wildlife Trusts |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|---|---------------------|
| | insufficient to ensure the protection of species such as Lapwing and Skylark. | | |
| JPA1.2_JPA1.2.124 | BNG is based on habitats and uses established metrics to measure losses and gains. There are currently no agreed approaches for evaluating net gain for species. However, the guiding principles of BNG is that the requirements for species should be taken into account at each stage of the net gain assessment, for example, designing the habitats so that they support the Species of Principal Importance affected. This approach to S41 species must be undertaken and methodologies and conservation strategies for the species outlined within the proposed mitigation and enhancement plan. S41 species are a material consideration in planning development and their loss without compensation would merit refusal, and as such they should be considered as a constraint on the proposed allocation. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15] . Ecological/biodiversity matters associated with the Simister and Bowlee site are also summarised in section 19 of the Simister and Bowlee Allocation Topic Paper [10.01.55] . Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | The Wildlife Trusts |
| JPA1.2_JPA1.2.125 | Welcomes the highlighted opportunities to enhance areas of grassland to create native wildflower meadows. However, the areas of retained and new habitat need to be of sufficient size to support the ground nesting S41 birds identified as part of the ecological assessment. Species such as Lapwing and Skylark require large open and quiet spaces with limited or no public access (dog-free etc). High levels of public access and planting of trees would all be incompatible with the maintenance and expansion of these species of open grasslands. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15] . Ecological/biodiversity matters associated with the Simister and Bowlee site are also summarised in section 19 of the Simister and Bowlee Allocation Topic Paper [10.01.55] . Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation | The Wildlife Trusts |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|---------------------|
| | Without this provision, there is a strong chance these species would be lost from the site | in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | |
| JPA1.2_JPA1.2.126 | The Greater Manchester Ecology Unit's Preliminary Ecological Appraisal report also highlights that it will be seeking provision for farmland birds. The mitigation and enhancement plan must show how these species are to benefit from the development of the site. If these species cannot be adequately mitigated on site, then off-site mitigation must be provided. Suitable compensation areas need to be identified and managed to enhance the populations of the S41 species. This approach will also benefit other fauna identified in the report such as Brown Hare and Barn Owl. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15] . Ecological/biodiversity matters associated with the Simister and Bowlee site are also summarised in section 19 of the Simister and Bowlee Allocation Topic Paper [10.01.55] . Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | The Wildlife Trusts |
| JPA1.2_JPA1.2.127 | Large sections of the site are under Countryside Stewardship middle tier options. If the options within the Stewardship agreement is for provision and/or management for farmland birds then the loss of this management also needs to be mitigated and/or compensated for. | Noted. | The Wildlife Trusts |
| JPA1.2_JPA1.2.128 | Simister is already surrounded by the motorway within the village and as such, the village requires as much green space, to provide balance and act as CARBON SINK to enable Manchester to be a low carbon economy and to offset the negative impact of this existing major motorway and junction. | No change necessary. PfE Policy JPA 1.2 (Simister and Bowlee) requires new development on the site to make provision for new, high quality, publicly accessible, multi-functional green and blue infrastructure within the allocation to provide health benefits to local residents as well as creating a visually attractive environment. | Ian Taylor |

| | priority species and their grassland, hedgerow and pond habitats will be destroyed. | allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | |
| JPA1.2_JPA1.2.187 | Concern that narrow-leaved Water-plantain's only known site in Bury lies just downstream of the sand quarry and may well occur within the allocation. Looking at the distribution on the National Biodiversity Network Gateway this may be the only record in Greater Manchester." | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15] . Furthermore, Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | David Bentley |
| JPA1.2_JPA1.2.188 | Bury Council are unfit to be involved in managing sites with wildlife interest. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence on wildlife and ecological matters, including an Ecological Report (2020) [10.01.15] . Furthermore, Policy JPA1.2 (Simister and Bowlee) requires that new development on the site will be required to minimise the impact on and provide net gains for biodiversity assets within the allocation in accordance with Policy JP-G 9 'A Net Enhancement of Biodiversity and Geodiversity'. | David Bentley |
| JPA1.2_JPA1.2.177 | Concerns regarding the deliverability and capacity of the planned allocation having regard to the significant levels differences and undulating land that exist across the entire draft allocation. This could affect both the capacity and viability of the site and there is no evidence within the topic paper or site specific papers that this has been assessed and considered in sufficient detail, and it is unclear | No change necessary. Evidence on the viability and deliverability of the proposed site allocation at Simister and Bowlee is set out in section E Deliverability of the Site Allocation Topic Paper for Simister and Bowlee [10.01.55] . | Hollins Strategic Land |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |

| | whether accurate topographical information for the site has been obtained to inform this | | |
| | Air Quality | | |
| JPA1.2_JPA1.2.132 | M62 area is the most polluted area in the country, will make worse. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19] . Section 22 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] highlights key information with regards to air quality associated with the proposed development of this site. | Ann Collins |
| JPA1.2_JPA1.2.133 | Simister and Bowlee currently have illegal air quality readings due to the motorways (M60, M62 and M66) surrounding the site & the local authority has a duty of care for all residents and should consider all intelligence particularly when it could jeopardise the health and wellbeing of local residents. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19] . Section 22 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] highlights key information with regards to air quality associated with the proposed development of this site. | Please see JPA1.2_JPA1.2.133 |
| JPA1.2_JPA1.2.134 | The readings on the Strategic Road Networks around Simister and Bowlee in 2015/2016 were: <ul style="list-style-type: none"> • 75% at illegal limit • 15% at legal limit • 10% not full year readings With the introduction of a 1.2 million square metres of industrial and 1550 homes this will undoubtedly increase already illegal levels of carbon emissions even further. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19] . Section 22 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] highlights key information with regards to air quality associated with the proposed development of this site. | Please see JPA1.2_JPA1.2.134 |
| JPA1.2_JPA1.2.135 | Highways England have already tried to incorporate appropriate noise and air quality mitigation through the Barrier erecting study and it failed. The before and after results were provided and it was confirmed there was no reduction in pollution. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19] . Section 22 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] highlights key information with regards to air quality associated with the proposed development of this site. | Please see JPA1.2_JPA1.2.135 |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|--|--|
| JPA1.2_JPA1.2.136 | Instead of using the readings from the motorway they are using the readings from their own monitor which is not located in Simister. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19]. Section 22 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] highlights key information with regards to air quality associated with the proposed development of this site. | LouiseHolland |
| JPA1.2_JPA1.2.137 | Air quality will jeopardise the health and wellbeing of future residents. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19]. Policy JPA1.2 (Simister and Bowlee) requires that new development on the site incorporate appropriate noise and air quality mitigation measures. | LouiseHolland Ian Taylor |
| JPA1.2_JPA1.2.138 | We should not be building houses in places which will give people a reduced life expectancy. | No change necessary. The proposed site allocation at Simister and Bowlee is supported by a range of evidence including a noise and air quality statement [10.01.19]. Policy JPA1.2 (Simister and Bowlee) requires that new development on the site incorporate appropriate noise and air quality mitigation measures. | LouiseHolland |
| JPA1.2_JPA1.2.139 | Locating a major strategic development adjacent to the confluence of several motorways and major roads when the adjoining neighbourhood has double the rate of lung cancer and respiratory disease, consigning people in the area to more air pollution, disease and early death. | No change necessary. Policy JPA1.2 (Simister and Bowlee) requires that new development on the site incorporate appropriate noise and air quality mitigation measures and high quality landscaping along the M60 motorway corridors and local road network if required within the allocation. | Thornham St John's Neighbourhood Forum |
| | Flood risk | | |
| JPA1.2_JPA1.2.140 | Whilst the wording of the above policy seeks to address flood risk, surface water run-off, ecology, biodiversity and the highway network , in reality all it is doing is pushing the issue back to be addressed at application stage once the principle of development has been established within the Plan. As such, without clear demonstration on matters | No change necessary. The requirement for a masterplan to be approved by the LPA in advance of the submission of a planning application is intended to ensure that the LPA is fully satisfied with the intended development. It is considered that this will actually save time during the planning application process as key development parameters will have already been agreed | John Paul Ashworth Jane Wagner |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|------------------------------|
| | including highway impact, ecological issues and flood risk at this stage we would argue that this proposed allocation cannot be found to be sound | | |
| JPA1.2_JPA1.2.141 | The majority of the site is located within flood zone 1 with existing watercourses within the allocation boundary and ponds which could pose a risk. Furthermore, given the anticipated scale of development and the large increase in hard surfacing, there is a serious risk that the site could result in flooding on adjacent sites as well as localised floods due to increased surface water runoff. Given the anticipated scale of development and the large increase in hard surfacing, there is a serious risk that the site could result in flooding on adjacent sites as well as localised floods due to increased surface water runoff. | No change necessary. Section 12 of the JPA1.2 (Simister and Bowlee) Topic Paper [10.01.55] highlights key information with regards to flood risk. | Please see JPA1.2_JPA1.2.141 |
| JPA1.2_JPA1.2.142 | Concern that there is an absence of clear expectations for high quality sustainable water management in the draft policy and that amendments to wording are required to reflect Greater Manchester's ambition to be a city region where resilience to flooding and climate change is a key priority. | Water efficiency measures in new developments will be a matter for district local plans to determine. This approach is considered consistent with the NPPF, particularly paragraph 28 which confirms that it is for local planning authorities 'to set out more detailed policies for specific areas, neighbourhoods or types of development'. Therefore, no change to the plan is considered as necessary. | United Utilities Group PLC |
| | Heritage and historic environment | | |
| JPA1.2_JPA1.2.143 | Sites of historical interest in fields near Prestwich and Blue Ball Lane. Properties from 18th Century on Simister Lane will be damaged by traffic. | No change necessary. Policy JPA1.2 (Simister and Bowlee) requires the protection and, where appropriate, enhancement of heritage assets and their setting within the allocation and to carry out a detailed assessment and evaluation of known and potential archaeological sites to establish specific requirements for the protection and enhancement of significant heritage assets. | Ian Taylor |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|--|---|
| JPA1.2_JPA1.2.144 | There are various heritage assets located within the wider local area and would ask that greater regard be paid to the impact of the scale and form of development on their setting, character and long-term future as a result of these development proposals. | No change necessary. Policy JPA1.2 (Simister and Bowlee) requires the protection and, where appropriate, enhancement of heritage assets and their setting within the allocation and to carry out a detailed assessment and evaluation of known and potential archaeological sites to establish specific requirements for the protection and enhancement of significant heritage assets | Jane Lester SGMGB Stephen Cluer Jane Wagner |
| JPA1.2_JPA1.2.145 | Even though the proposals seem to indicate that there would be a gap of a 100m or so between the existing village and new houses, this will still destroy the character of the village. It is utterly ridiculous to think that a village can survive its character if it is completely surrounded by 2,700 new houses. | No change necessary. The extent of the Simister and Bowlee allocation has been reduced significantly in the PfE 2021 compared to what was proposed in the 2019 draft in order to help preserve the character of Simister Village and reduce the amount of land to be removed from the Green Belt. | Bury Liberal Democrat Council Group |
| | Brownfield | | |
| JPA1.2_JPA1.2.146 | Brownfield – Greater use should be made of empty and underused sites such as the business parks in the local area. | No change necessary. Government policy does not allow the reduction of empty properties as a contributor to meet the borough's housing targets. | Please see JPA1.2_JPA1.2.146 |
| JPA1.2_JPA1.2.168 | Considers that we should not be building more when there are many unused flats in Manchester | No change necessary. Government policy does not allow the reduction of empty properties as a contributor to meet the borough's housing targets. | Lucy Hamblett |
| | Consultation | | |
| JPA1.2_JPA1.2.149 | Questionnaire and consultation is too long, confusing or difficult to read in an attempt to prevent responses from being provided. | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | Rhea Hall-Spencer Pamela Maxon paul roebuck John Paul Ashworth |
| JPA1.2_JPA1.2.151 | There has been a deliberate campaign of misinformation and misleading statements with residents only being told of the plans for their specific ward, and not being informed of the bigger picture across the borough, thus giving the impression that the impact is less than it is. | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|--|--|
| JPA1.2_JPA1.2.152 | There has been an over reliance on residents finding things out for themselves on social media and websites and thus a failure to engage with various groups due to over reliance on the use of social media and technology. There has been no access to public internet, e.g., in libraries, during Covid. This has adversely and disproportionately affected older people and those from deprived backgrounds. This is against the SCI 2.4 & 4.17. Countrywide, Covid restrictions are now lifted but restrictions still remain in place in Bury's Statement of Community Involvement | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | See Appendix |
| JPA1.2_JPA1.2.155 | There has been little warning to residents and it has not been advertised properly | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | Jane And Malcolm Wagner Jane Wagner |
| JPA1.2_JPA1.2.157 | Public consultation has been poor and inaccessible | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | See Appendix |
| JPA1.2_JPA1.2.162 | Requests a fully accessible public consultation to follow that adheres to the Statement of Public Involvement | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | Matthew Brown |
| | Other | | |
| JPA1.2_JPA1.2.148 | Proposal needs to be shown in both Bury and Rochdale district sections so it is not missed. Village boundary of Simister needs to be clearly identified. | Noted. | Jane And Malcolm Wagner |
| JPA1.2_JPA1.2.150 | Bury Council have failed to comply with their Statement of Community Involvement Statement of Community Involvement at all stages of the creation of the plan. There was no notification to residents of the initial call for sites and the amount spent on making residents aware of the plan is disproportionately small. | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | See Appendix |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|--|
| JPA1.2_JPA1.2.154 | The construction will have a major negative impact on current inhabitants. | Comment not specifically relevant to the content of Policy JPA1.2. | See Appendix |
| JPA1.2_JPA1.2.156 | The PfE is significantly and substantially different from the GMSF and cannot be treated as effectively the same plan. | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | C Smith |
| JPA1.2_JPA1.2.158 | In addition to PfE each authority needs to come up with its own local plan. No details have been given about when these plans will be available. | No change necessary. The programmes for each district's development plan (including Local Plans) are included within individual Local Development Schemes. | Natasha Cross Gary West C Smith |
| JPA1.2_JPA1.2.59 | There are no details of how Duty to Cooperate will be achieved | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | Natasha Cross Gary West C Smith Rhea Hall-Spencer Michael Minett |
| JPA1.2_JPA1.2.160 | A 35% uplift for the Manchester City Council area represents a significant change between the previous spatial framework the Greater Manchester Spatial Framework and the current joint development plan Places for Everyone. | No change necessary. A higher annualised plan figure for Manchester City than in the GMSF 2020 (2,951 vs 3527) has been introduced within PfE 2021 as a result of the revised LHN. Through this process Manchester City Council has identified sufficient land in the urban area to meet its increased need and consequently remove a very small Green Belt housing site. This remains consistent with the GMSF 2020 spatial strategy which concentrated growth in the centre of the conurbation. Manchester City's increased LHN, and therefore its PfE 2021 housing target, helps to maintain a consistent spatial strategy, between the two plans, despite Stockport's withdrawal. and results in a Plan with substantially the same effect as the GMSF 2020 on the nine districts | C Smith |
| JPA1.2_JPA1.2.163 | Requires soundness scrutiny in line with all relevant latest policies and statistics (ONS, carbon neutral and climate etc), and further studies into viability. The plan for this allocation includes lots of desktop | No change necessary. Evidence on the viability and deliverability of the proposed site allocation at Simister and Bowlee is set out in section E Deliverability of the Site Allocation Topic Paper for Simister and Bowlee [10.01.55] . | Matthew Brown |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|---|---|--------------------------------------|
| | studies and an alarming lack of detail on points that could mean the allocation's delivery is completely nonviable. | | |
| JPA1.2_JPA1.2.165 | Questions the relationship of politicians with developers and considers the views of residents to be ignored. | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | Tracy Raftery |
| JPA1.2_JPA1.2.166 | The policy and supporting text could be improved by clarifying that financial contributions should be proportionate and related to the development in line with national policy. | No change necessary. Evidence on the viability and deliverability of the proposed site allocation at Simister and Bowlee is set out in section E Deliverability of the Site Allocation Topic Paper for Simister and Bowlee [10.01.55] . | Northern Gateway Development Vehicle |
| JPA1.2_JPA1.2.167 | The plan is 7 years out of date and is no longer fit for purpose as a result of covid there is a need to now protect our outside green spaces. | No change necessary. As detailed in Chapters 1, 6 and 7 of the PfE Plan, two assessments of the potential impacts of Covid-19 and Brexit on the economy were carried out, initially in 2020 and again in 2021. Both assessments concluded that there was insufficient evidence to amend the assumptions underpinning the PfE Plan. For further information see COVID-19 and Places for Everyone Growth Options [05.01.03] . | Jane And Malcolm Wagner |
| JPA1.2_JPA1.2.169 | A number of the criteria set out in the policy do not apply equally to all parts of the site. Some issues are less relevant to some parts of the site. Therefore it will be necessary to apply the policy requirements according to their relevance to individual sites where these come forward independently. Revised wording to the policy suggested to provide clarification. | No change necessary. It is considered appropriate that Policy JPA1.2 (Simister/Bowlee) covers the complete allocation. The Policy specifies that any proposals for this allocation must be in accordance with a comprehensive masterplan that has been previously approved by the LPA(s). This masterplan will establish the parameters for development across the site. | Barratt Homes |
| JPA1.2_JPA1.2.170 | The Barratt site (eastern part of the site) can come forward independently of the wider allocation without giving rise to the risk of piecemeal development or it prejudicing the form of development across the wider allocation. | No change necessary. It is considered appropriate that Policy JPA1.2 (Simister/Bowlee) covers the complete allocation. The Policy specifies that any proposals for this allocation must be in accordance with a comprehensive masterplan that has been previously approved by the LPA(s). This masterplan will establish the parameters for development across the site. | Barratt Homes |

| Row | Summary of main issues raised to PfE2021 | Summary response to main issues raised to PfE2021 | Respondent name(s) |
|-------------------|--|---|--|
| JPA1.2_JPA1.2.172 | PfE is not legally compliant given the changes from GMSF to PfE. Compliance with Reg 18 should be established via a Judicial Review. | Comment not specifically relevant to the content of Policy JPA1.2. Matter addressed elsewhere. | Natasha Cross Gary West Rhea Hall-Spencer Helen Roberts Michael Minett |
| JPA1.2_JPA1.2.174 | Brexit and the effects of covid-19 should be factored into requirements, GMSF was created before both of these serious economic and social events. | No change necessary. As detailed in Chapters 1, 6 and 7 of the PfE Plan, two assessments of the potential impacts of Covid-19 and Brexit on the economy were carried out, initially in 2020 and again in 2021. Both assessments concluded that there was insufficient evidence to amend the assumptions underpinning the PfE Plan. For further information see COVID-19 and Places for Everyone Growth Options [05.01.03] . | Rhea Hall-Spencer Helen Roberts |
| JPA1.1_JPA1.1.190 | Policy unsound / not legally compliant (no further details given). | No change is considered necessary. JPA1.2 is considered to be consistent with the NPPF and provides an appropriate strategy for the density of new housing which is a key objective of the plan and NPPF. | Pamela Neilan Rob Shield Lindsay Connolly Olivia Allen Rosaleen O'Donnell Juliet Eastham Janet Alldred Mary Sharkey Malcolm Pye Jonathan Wigman L J Park |
